Dataset　　　　Query

Id	Name	Type	Description	Action
iris	iris	csv	This is perhaps the best known database to be found in the pattern recognition literature. Fisher's paper is a classic in the field and is referenced frequently to this day. (See Duda & Hart, for example.) The data set contains 3 classes of 50 instances each, where each class refers to a type of iris plant. One class is linearly separable from the other 2; the latter are NOT linearly separable from each other.	View Delete
nasdaq	nasdaq	csv	NASDAQ Composite (^IXIC) history data	View Delete
air_passengers	air_passengers	csv	sample data of passengers for airline	View Delete
churn	churn	csv		View Delete
housing	housing	csv		View Delete
